

Community Outreach Program

This year the Community Outreach Program for the San Mateo County Branch will reach out to the Bay Area Retirement Homes. Our first project will focus on our Certificate of Merit students (of any instrument) and their performance practice at Nursing or Assisted Living Homes. This will not only benefit our students, but please the elderly as well.

In December, we will have two recitals and feature performances of students CM levels four to advanced. Next February we will also aim to have the same number of recitals and include more levels.

Guidelines for these recitals and more information will be posted on the Events and News page of this site.
